LETTER OF TRANSMITTAL

The Honourable John Nilson
Minister of Saskatchewan Health
Room 361
Legislative Building
Regina, Saskatchewan
CANADA S4S 0B3

Dear Minister Nilson:

In accordance with the requirements stated in Section 55(1) of *The Regional Health Services Act* and *The Tabling of Documents Act*, I am pleased to submit to you, and to the Legislative Assembly of Saskatchewan, the 2003-04 Annual Report of the Saskatoon Health Region.

This report provides the audited financial statements of the Saskatoon Health Region for the year ending March 31, 2004 as well as describes the activities and accomplishments of the Health Region in providing health care services to residents of the health region and other parts of the province.

We are proud of our achievements, and we believe we have served the province well in fulfilling our leadership role in the Saskatchewan health care system.

Respectfully submitted,

Bob Bundon
Chair, Saskatoon Regional Health Authority

INTRODUCTION

The Saskatoon Health Region began operations on August 1, 2002, and operates under *The Regional Health Services Act*. A 12-person government-appointed Regional Health Authority has governance responsibilities for the Health Region.

Saskatoon Health Region is the largest health region in the province serving almost 300,000 residents in more than 100 cities, towns and rural municipalities. As a provincial resource, the Health Region serves thousands of other individuals from throughout Saskatchewan who require specialized care offered in Saskatoon. It is one of the most integrated and complex health delivery agencies in Canada, responsible for services ranging from hospital and long term care to public health and home care. The Health Region provides services and programs in 10 hospitals (including three provincial tertiary centres in Saskatoon), 29 long term care facilities, eight primary health care sites, four public health centres, numerous community-based locations, and in people's homes.

The Health Region is also the largest single employer in the province with approximately 11,000 staff members and over 750 physicians. It also provides training opportunities to 1,000 health sciences students each year and is a founding member of the Saskatchewan Academic Health Sciences Network.

Financial results at the end of March 31, 2004 indicated an over-expenditure of approximately $6.4 million, or 1.2%, on an annual operating budget of $536 million. The over-expenditure was primarily driven by increased service demands in a number of health care program areas, changes made to clinical and infection control practices, and the short term costs related to the successful recruitment of a number of health care providers, including nurses and physicians.

Our efforts to provide quality service within the human and financial resource realities continue to be recognized both at home and abroad. Saskatoon Health Region was recognized internationally for our physical activity initiative, **in motion**, and two of our rehabilitation programs. Nationally, Maclean's magazine, for the fifth consecutive year, rated Saskatoon as one of the top health regions in the country. The Canadian Institute for Health Information annual report indicated the Health Region is performing at or exceeding national benchmarks in a number of areas. In addition, a number of our initiatives were highlighted in Dr. Michael Rachlis's most recent book about innovation and excellence in Canadian health care. Locally, Health Region residents express a solid degree of confidence in the care, delivery and management of health services according to Saskatchewan Health's survey of public confidence in the health care system released in January, 2004. The Health Region placed above the provincial average in 14 of the 16 categories surveyed.

104-06838/

The purpose of this report is twofold:

- To fulfill the annual reporting requirements established in *The Regional Health Services Act;* and,
- To report to the Minister of Health and the public on the Health Region's activities, performance and achievements related to legislated and delegated responsibilities.

The main theme of this annual report is shared responsibility. All of us, as individuals and as members of organizations and communities, have responsibility for sustaining and improving our health and helping our health care system to perform effectively in providing needed services. The report also focuses on how the Health Region was able to deal with our financial challenges, and continued to meet the needs of our communities providing effective and efficient health care services for the residents of Saskatoon Health Region and the province.

Alan Lalonde, MRI supervisor, and David Boryski, technologist, review the results of an MRI at Royal University Hospital

YEAR AT A GLANCE

The following list contains some notable facts as they pertain to the Saskatoon Health Region during the 2003-04 fiscal year.

- Approximately 11,400 staff are employed by the Health Region, making it the largest single employer in the province.
    - health services support staff (e.g. food and nutrition, maintenance, housekeeping and health aides): 54.4%
    - registered nurses/registered psychiatric nurses: 24.1%
    - licensed practical nurses: 3.7%
    - health science occupations such as therapists, pharmacists, dietitians, and social workers: 7.2%
    - non-unionized affiliated agency staff: 4.2%
    - managers: 3.4%
    - non-management out-of-scope staff: 3%
- More than 750 physicians work in the Health Region, accounting for 40% of all physicians working in the province. In 2003-04 there was a net gain of 11 physicians compared to the previous year.
- A number of nursing vacancies were filled with a net gain of 64 registered nursing and 20 licensed practical nursing positions filled.
- Approximately 79% of all expenditures went to pay salaries and benefits for staff in owned and affiliated agencies, and to compensate contracted physicians.
- Approximately 65% of the overall budget covers expenses related to the delivery of hospital services.
- The Health Region reported an operating deficit at the end of the fiscal year of $6.4 million on an overall operating budget of $536 million.
- The overall total number of days adult and children patients stayed in hospital was 263,976, almost 5% higher than last year.
- The number of inpatient and day surgeries performed in Saskatoon's three hospitals totalled over 33,000 surgeries and the wait times for elective, inpatient, day and urgent surgery decreased from 5.4 months to 4.8 months.
- The number of hemodialysis procedures increased to 24,673 from 22,609 the previous year.
- The number of emergency room visits increased by 1.5% in Saskatoon's three hospitals to 108,055 from 106,477 visits in the previous year, and was down slightly in rural hospitals to 35,193 from 36,304 visits in the previous year.
- The total number of units of nursing and home services to home care clients, including meals, was 490,269 – in 2003-04, this number was 486,080.
- The number of people waiting for a bed in a long term care facility was 29 in the rural area, and was 64 in Saskatoon.
- The primary health care model was extended into three additional health centres, bringing the total number of primary health care centres in the Health Region to eight, with an estimated 10,000 visits.
- The number of immunizations continued to increase to 72,509 from 68,683 the previous year.
- The number of CT scans increased to 34,375 from 31,363 last year, and MRIs increased to 8,844 from 8,509 in 2002-03.
- The number of newborn admissions was up by 76 to 4,053.
- The average life expectancy at birth was 79.1 years, significantly better than the national and provincial life expectancy rates.
- The overall leading causes of death continue to be heart disease and stroke, cancers and diseases of the respiratory system.
- The Health Region received a number of provincial and national honours, including being ranked for the 5th consecutive year as one of the top health regions in Canada by Maclean's magazine, and by the Canadian Institute for Health Information as performing at or exceeding national benchmarks in a number of areas.

VISION, MISSION, VALUES AND GOALS

The Saskatoon Regional Health Authority has defined a vision, mission and values that are aligned with the Saskatchewan Health vision of *building a province of healthy people and healthy communities*.

Vision

Working in harmony for healthy people and healthy communities

Mission

We work in partnership to improve health and well-being through excellence in consumer-centred service, education and research

Values

- Compassionate care
- Respect for the individual and for diversity
- Shared responsibility for improving health
- Innovation and learning
- Quality and integrity of stewardship

Goals

The Authority has also defined goals that are aligned with the long-term goals of Saskatchewan Health.

Saskatchewan Health goals	*Saskatoon Regional Health Authority goals*
Improved access to quality health services	Improving access to quality services
Effective health promotion and disease prevention	Healthy communities supported by health promotion and disease prevention
Retain, recruit and train health providers	Healthy workplaces supported by measures, including recruitment and retention of health providers
A sustainable, efficient, accountable and quality health system	Healthy operations, working within the limits of available resources and improving efficiency and accountability for the use of those resources
	Innovation and integration of service, education and research

These goals serve as a guide to aid Saskatchewan Health and the Regional Health Authority in their reporting on progress and results.

AUTHORITY MEMBERS

Back Row (left to right): Eric Braun, Saskatoon; Frank Quennell (up to December 17, 2003), Saskatoon; Marj Gammel, Saskatoon; Jim Fergusson, CEO; Audrey Ahenakew, Saskatoon; Les Alm (up to December 31, 2003), Allan; Kelly Block, Waldheim

Front Row (left to right): Bob Bundon, Chair, Saskatoon; Karen Raycroft, Wynyard; Darlene Eberle, Vice Chair, Humboldt; Carol Teichrob, Corman Park; Bonita Beatty, Saskatoon; Keith Thomson, Riverside Estates

GOVERNANCE AND ORGANIZATION

Governance

The role and responsibilities of the Saskatoon Regional Health Authority are defined in *The Regional Health Services Act*, and include the planning, organization, delivery and evaluation of health services – consistent with the strategic direction of the health care system in Saskatchewan as established by the Minister of Health, and within the limits of administrative powers outlined in legislation and regulations.

The operation of the Saskatoon Regional Health Authority was supported by four committees: the Executive Committee, the Audit Committee, the Finance Committee, and the Human Resources Committee. Each of these entities includes three or more members of the Authority and has terms of reference defined in Authority policy.

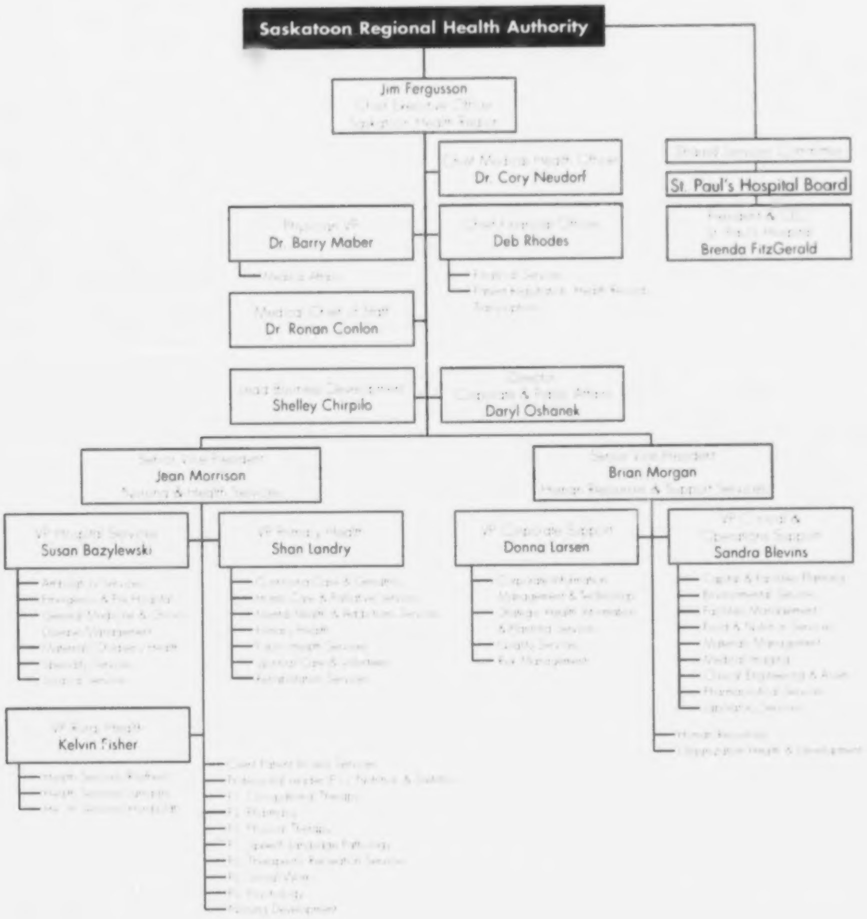
The Saskatoon Regional Health Authority has affiliate and contractual relationships for the delivery of health care services and programs with many acute care, long term care and community-based organizations. Included in these relationships is the integrated shared management structure between the Health Region and St. Paul's Hospital that was implemented between the Hospital and the former Saskatoon District Health in 1995.

Central to the governance philosophy of the Saskatoon Regional Health Authority is a commitment to interdependence, which recognizes the power and value of working together in an interdependent fashion. The Authority works to establish interdependent working relationships with its affiliates and other partners, and applies the interdependent approach in developing and enhancing these relationships. Some partners include Saskatchewan Health, urban and rural municipalities, other government partners (Community Resources & Employment, Justice, Learning, etc.), and various other external and community-based groups.

Community Advisory Networks, established and consistent with *The Regional Health Services Act*, advise the Authority on broad issues related to the health of the community and assist the Authority in understanding the needs, preferences and priorities of people and communities.

Organization

The administrative structure of the Saskatoon Health Region is outlined in the accompanying organizational chart.



The Health Region's senior management members have responsibility for portfolios that include a broad array of programs and services. Management and support functions are structured to ensure effective planning, integration and delivery of health services across the Health Region in the facilities and community-based locations. The organization includes a distinct rural health portfolio to focus dedicated attention to challenges inherent in the large geographic area of the Health Region.

The integration of programs and services from the four previous health districts that now make up the geographic boundary of the Health Region was advanced during 2003-04, and focused mainly on Financial Services and Human Resources. Discussions continued regarding the development of a partnership agreement with St. Elizabeth's Hospital in Humboldt that supports Regional integration. Regional integration efforts on clinical and operations support will continue into the next fiscal year.

The Health Region works closely with a number of affiliated agencies and other health care organizations to provide services and programs to residents of the Health Region and the province. The Authority has affiliate and funding relationships for the delivery of health care services and programs with several agencies, long term care facilities and community-based organizations. An affiliate, as defined by *The Regional Health Services Act*, is an operator (other than the health region) of a hospital or a not-for-profit special care home. A health care organization, as defined by the Act, is an affiliate or a prescribed (in regulation) organization that receives funding from a Regional Health Authority to provide health services.

The Saskatoon Regional Health Authority also has a unique partnership with the St. Paul's Hospital Board. Through the Shared Services Committee of the two boards, the St. Paul's Hospital Board is responsible for the governance and management of pre-hospital and emergency services, laboratory services, medical imaging and nuclear medicine services, palliative care services, renal services, food and nutrition services, pharmaceutical services and spiritual care services. All other care groups and resource services are managed by the Health Region and provided to St. Paul's Hospital within the framework of the joint service management agreement.

REGIONAL ENVIRONMENTAL SCAN

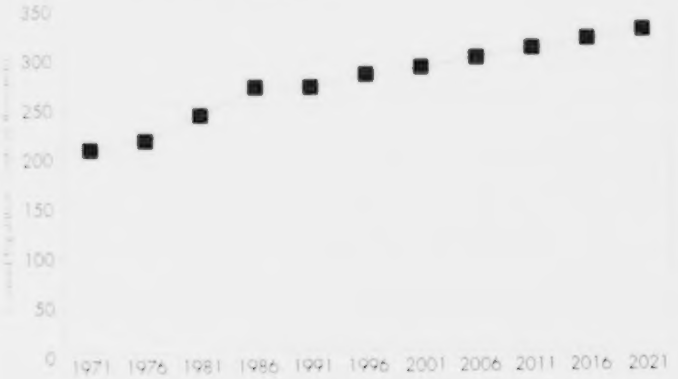
Saskatoon Health Region is currently working on an update of the 2000 health status report. The complete health status report will be available in the fall of 2004 and will include new information from the 2001 census and the Canadian Community Health Survey analysis, as well as information reflecting our new regional boundaries. The Health Status Report 2004 will be available in printed form or on the Health Region's website.

Since population health indicators do not tend to change quickly, many of the Health Region's health issues are unchanged from those presented in the previous Annual Report and needs assessment documents. What follows are some of the broad level analyses we have completed on health status and population health.

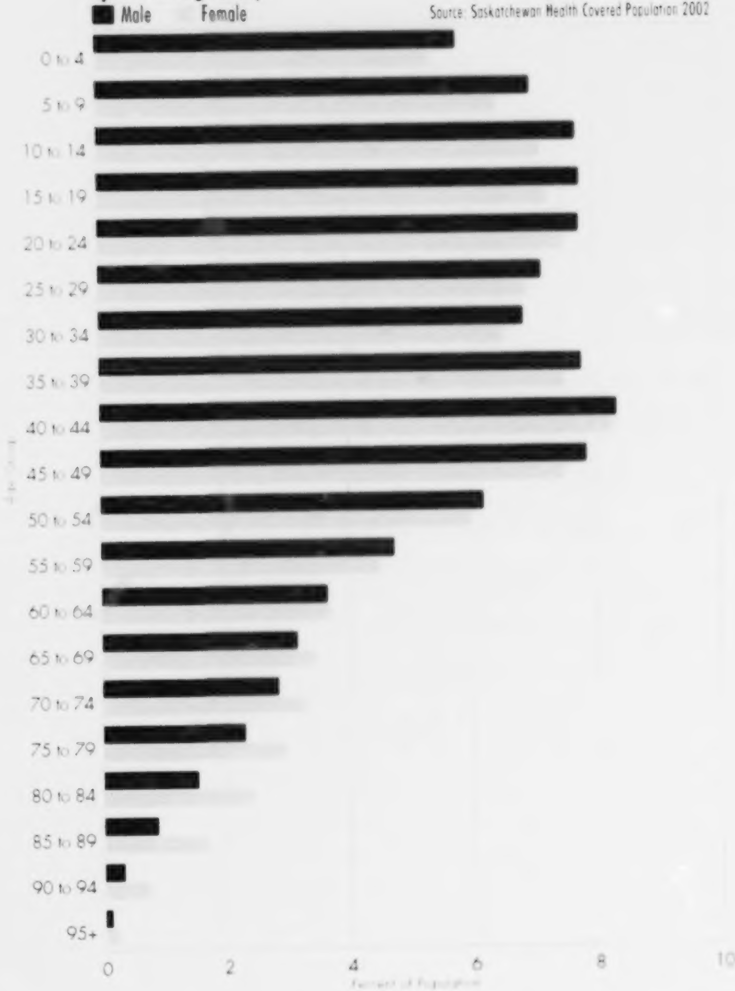
Population

The following graph depicts the population growth of the Health Region from 1971 to the present, along with a projection, based on the current trend. The population of Saskatoon Health Region is 282,967 (2003). It is expected that the population of the Health Region will continue to grow at its current rate in the immediate future.

Total population of Saskatoon Health Region, Historical and Projected 1971-2021



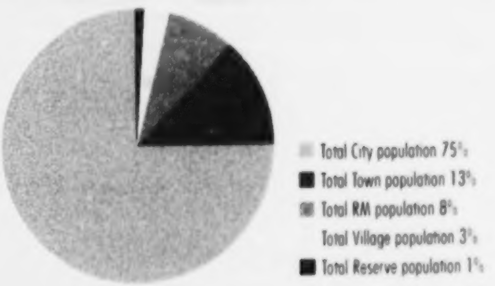
As the following graph shows, the Health Region has a fairly typically shaped pattern, compared to other regions or compared to Canada, with the bulge of the baby-boomers dominating the picture, and a secondary bulge representing their children.



2002 Saskatoon Health Region Population Percent of Population by Sex and Age Group

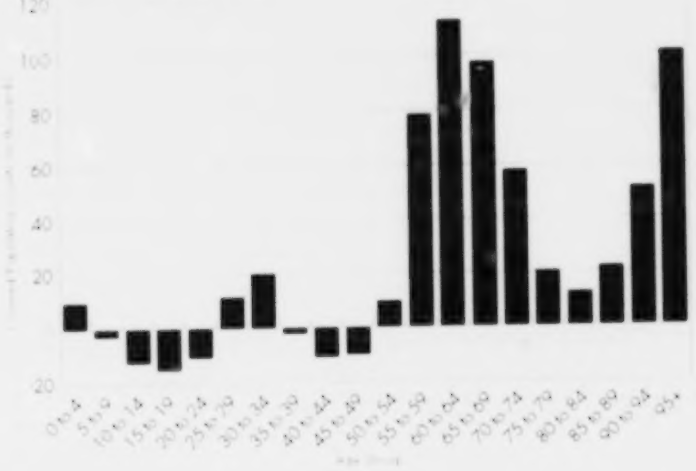
Source: Saskatchewan Health Covered Population 2002

The population is distributed as seen in the following chart, with 75% living in cities, 13% in towns, 8% in rural municipalities, 3% in villages, and 1% on First Nation reserves.



2002 Covered Population Counts and Percentages for Saskatoon Health Region by Community Type, Both Genders Combined

The estimated population percent change between now and the year 2021 is shown below. If current growth patterns continue, and the aging of the population and death rates continue their current course, these are the percentage increases we will see in the various age groups. While all age groups show growth, the most significant increase is anticipated for the 55+ group.



Estimated Population Percent Change for SHR, 2001-2021, By Age Group

Saskatoon Health Region does not differ significantly from Canadian averages on indicators of post-graduate and high school graduates, low income incidence or children in low income families. The Health Region is significantly better than the Canadian average in unemployment rates, youth unemployment and housing affordability.

Saskatoon Health Region has rates of lone parent families similar to the Canadian rate, income inequality rates similar to the provincial rate, and sits between the Canadian and provincial rates in the proportion of owner-occupied dwellings, the average dwelling value and average personal income.

Health Status and Outcome Indicators

Health status and outcome indicators provide a broad view of the health status of the Health Region's residents. Indicators of health status are important to the Health Region as they are used in setting directions and priorities for service delivery. The most recent data available is provided for review.

Health Status Indicators

Infant Mortality Rates

In Saskatoon Health Region the infant mortality rate per 1,000 live births is 5.8 (1998-2002 average). This is lower than the provincial rate of 6.2 (1998-2002 average), but higher than the national rate of 5.3 (1998-2001 average).

Low Birth Weight Rate

Based on 1998-2002 data, low birth weight rates are reported in 5.4% of all births in the Health Region. The low birth weight average is 5.2% in all of Saskatchewan, and nation-wide, the average is 5.8% (1995-1998 data).

Disability-Free Life Expectancy

A member of the general public in the Health Region is expected to live to the age of 68.3 years (1996) disability-free. The provincial disability-free life expectancy is also 68.3 years, while the national disability-free life expectancy is 68.8 years.

Life Expectancy

Saskatoon Health Region life expectancy at birth is 79.1 years (1997), significantly better than the national and provincial life expectancy of 78.5 years. The Health Region life expectancy is 76.1 years for males and 82.1 years for females, compared to the Canadian rates of 75.7 for males and 81.3 for females.

Self-Rated Health Status

Based on 2001 Canadian Community Health Survey data, a small majority of Health Region residents (56.5%) report their general health as very good or excellent. That number is higher than the residents of the province as a whole (54.0%), but lower than the population of Canada, of which 58.4% say their health is very good or excellent.

Smoking Rates by Age and Sex

The Health Region residents 12 years of age and older have a similar daily tobacco consumption rate (23.7%) to that of Canada (24.4%), but lower than the provincial rate of 25.0%. In 2001, there were similar percentages of male (23.8%) and female (23.6%) smokers in the Health Region. In Canada as a whole, more males are smokers (27%) than females (22.3%). Smoking rates also vary by neighbourhood and socio-economic group, with rates of daily smokers in the lower socio-economic group at over 40%, while rates in the highest socio-economic neighbourhoods are at 17%.

Body Mass Index: Overweight and Obesity Rates

Body Mass Index (BMI) is used to measure obesity and overweight in 20-64 year olds. Saskatoon Health Region has a higher proportion of people reporting BMI measures indicative of overweight or obesity (53.1%) compared to the national average (51.9%). The Health Region also reports a smaller rate of underweight (5.6%) compared to the national rate (7.0%), the rates of acceptable weight are 41.3% in the Health Region compared to 41.1% in Canada overall.

Participation in Physical Activity

Although BMI measures are higher than the national average, a greater proportion of Health Region residents 20-64 years of age are more physically active (23.2%) than the provincial (20.8%) or national (21.9%) averages.

Alcohol Consumption

There is a high percentage (26%) of residents in the Health Region, 12 years of age and older, who report drinking five or more alcoholic drinks on one occasion. Nationally, 23.3% report these consumption levels. Further, 23.3% of Health Region residents consume this amount of alcohol 12 or more times per year, compared to 20.1% nationally.

Morbidity and Mortality

The leading causes of death and hospitalization in the Health Region are listed below. While the pattern of leading causes is similar to that seen in the province as a whole, and to those in Canada overall, the regional rates have generally been lower than the provincial rates and the national rates, and in many cases tend to be among the lowest of any region in Canada.

This year, rates are reported as an average over several years, or as an age-standardized rate to make comparisons with other regions more accurate and meaningful. While this improvement is welcome, it does limit the comparison that can be done with reports from previous years.

Leading Causes of Death Per 100,000 Population, Saskatoon Health Region, 2000-2001 Average, Age-Standardized

Major Categories

Heart Disease	246
Cancer	190
Respiratory Disease	50

Selected Chronic Diseases

Ischemic Heart Disease	129
Stroke	57
Cancer of the lung	36

Leading Causes of Hospitalization Per 100,000 Population, Saskatoon Health Region, 1997-2001 Average, Both Sexes Combined

Major Categories

Circulatory System Disease	1,343
Digestive System Disease	1,246
Respiratory Disease	874

Selected Chronic Diseases (Age-Standardized)

Ischemic Heart Disease	453
Stroke	219
Congestive Heart Failure	206

Chlamydia Rates

Data for 2002 states that the (crude or un-standardized) chlamydia rate is 388 for every 100,000 females residing in the Health Region, and 256 for every 100,000 males residing in the Health Region.

Public Health Inspections

Based on the 2003 calendar year, the Health Region had inspection rates of 69% for food eating establishments, 38% for licensed accommodations, and 79% for swimming pools/water themes. These inspection rates make up only 20% of the total workload of inspection staff and do not include other services delivered by inspectors such as site followup, consultations, plan approval, communicable disease investigation at facilities, education programs for food service staff or swimming pool operators, and other services.

Influenza Immunization Rates for Older Adults

In 2002-03, 63% of Saskatoon Health Region adults over the age of 65 years were immunized for influenza. This compares to a provincial rate of 62%.

Health Outcome Indicators

Prevalence Rate and Complication Rate for Diabetes

Diabetes prevalence in the Saskatoon Health Region is lower than in both the province as a whole, and the country. In the Health Region, the prevalence rate for diabetes is 3.5%, in Saskatchewan it is 4.0% and for Canada, the rate is 4.1%.

Injury Hospitalization Rates

Saskatchewan and the Health Region continue to exhibit high injury rates relative to other provinces. Of the Health Region residents 12 years and older 10.4% had an injury in 2001 and sought medical attention for it (compared to 8.6% nationally, and 10.4% provincially). Of the Health Region residents 12 years old and over 5.3% had an injury in 2001 but did not seek medical attention for it, compared to 4.8% nationally and 5.3% provincially.

The age-standardized hospitalization rate for injuries (per 100,000 population) in 2002 was 670 for the Health Region, 879 for Saskatchewan and 781 for Regina.

Emerging Diseases and Issues

In 2003-04 the health care system was faced with challenges in dealing with illnesses such as Severe Acute Respiratory Syndrome (SARS) and West Nile Virus (WNV). Public Health Services has developed plans for dealing with both of these diseases in the event that outbreaks occur. We are also preparing to increase activity in our response to new diseases that could potentially affect the public, including water quality monitoring, and the enforcement of the tobacco bylaw.

Saskatoon Health Region Resources and Risks

Saskatoon Health Region's financial and human resources represent significant components of the organization's operations. In 2003-04, the Health Region was faced with unexpected volume increases in many health care service areas, as well as increased costs due to changes in clinical protocols and infection control measures.

REGIONAL ENVIRONMENTAL SCAN (continued)

The Health Region was successful in its recruitment efforts in 2003-04, and workforce retention and recruitment remains one of the top priorities in ensuring a diverse, healthy workplace. The following factors affect our workforce potential: the number of students graduating from our post-secondary educational institutions; and the age of our workforce (the average age of all employees is 42.55 years and the average age of registered nurses is 43.06 years). The Health Region is committed to an integrated approach to attain and retain the required human resources and to ensure we are providing a healthy workplace for staff and quality service to our clients.

Also critical to the provision of health care services is the sharing of information in an effective and efficient manner. Based on the large number of staff and the geographic size of the Health Region, this is a challenging task. The Health Region is working to develop and maintain an information management environment that collects and protects key data for provision of care, administrative decision-making and ongoing evaluation and planning. The Health Region has developed a new planning and service delivery model to better align with the provincial planning cycle and has piloted key applications such as the Internet Public Health Information System, Provider Registry and an Electronic Health Record application. Extending the regional network and standardizing software applications across the Health Region and its programs will be a significant challenge over the next few years.

Saskatoon Health Region continues to face major challenges in maintaining and enhancing its aging infrastructure, including hospitals, special care homes, medical and support equipment. Throughout 2004-05, work will continue on an infrastructure renewal strategy that will incorporate the basic principles of asset management.

MAJOR INITIATIVES, ACCOMPLISHMENTS AND RESULTS

Health care is a shared responsibility among individuals, health care organizations and workers, government, and other agencies. Saskatoon Health Region has developed partnerships with almost 200 agencies, including St. Paul's Hospital and other affiliated health care agencies, the business community, and educational institutions such as the University of Saskatchewan, Saskatchewan Institute of Applied Science and Technology, and Gabriel Dumont Institute, to advance initiatives that contribute to health and well-being in our community.

The Health Region undertook a number of major initiatives and programs focusing on the five goals of the organization – enhancing access to service, improving the health of our communities, our workplaces, and our operations, and working to innovate as we integrate service, education, and research. Throughout the year, the Health Region worked with Saskatchewan Health to develop measures to monitor the performance of the Health Region. In this section, progress and results are reported based on information that is currently available.

Enhancing Access to Quality Health Services

The following is a list of selected initiatives that highlight some of the efforts that were taken to enhance access to services and the results of those initiatives.

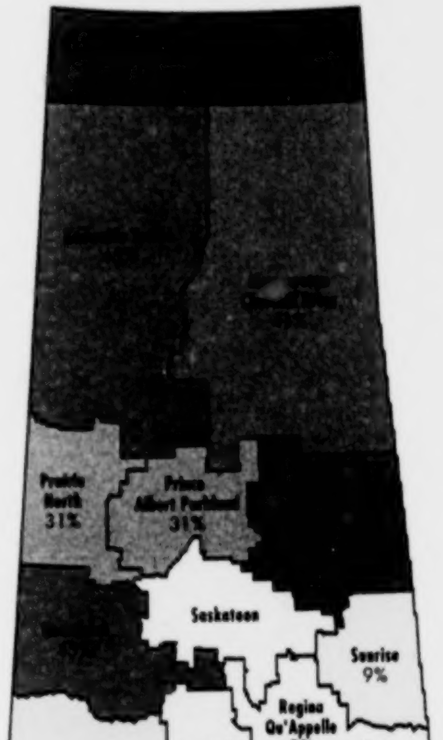
Serving the People of Saskatchewan

INITIATIVE: Saskatoon Health Region, as one of the main centres for tertiary care in the province, offers specialized and critical care services to people across the province.

RESULT: The accompanying chart provides a breakdown of Saskatchewan Health Regions, and the percentage of their residents who were hospitalized or received day surgery in Saskatoon Health Region in 2001-02.

2001-02 Acute Inpatient and Day Surgery Weighted Cases

(Per cent of cases hospitalized or requiring day surgery who were cared for in Saskatoon)



MAJOR INITIATIVES, ACCOMPLISHMENTS AND RESULTS

[illegible] Saskatoon Health Region [illegible] University of Saskatchewan [illegible]

[illegible]

Enhancing Access to Quality Health Services

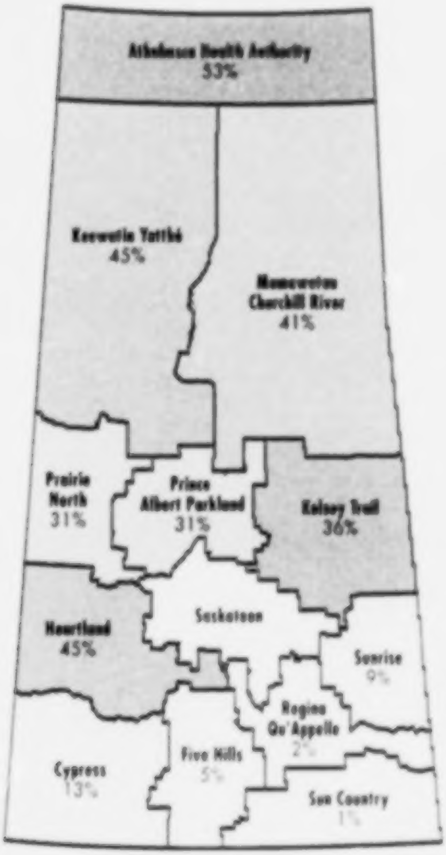
[illegible]

Serving the People of Saskatchewan

INITIATIVE: Saskatoon Health Region [illegible] the province.

RESULT: The accompanying chart [illegible] Health Regions [illegible] Saskatoon Health Region in 2001/02.

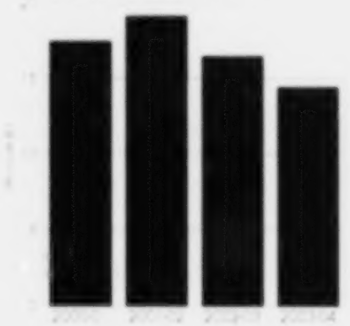
2001-02 Acute Inpatient and Day Surgery Weighted Cases



Cases to the Operating Room
(Saskatoon's 3 Hospitals)

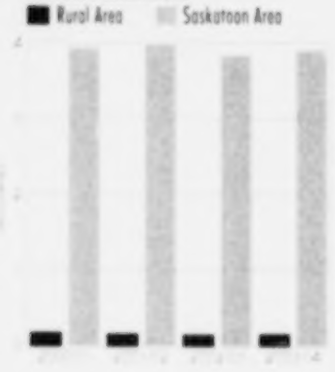
An additional 1,357 cases were performed in the rural area in 2003-04.

Surgery Wait List Volumes



The average wait time for inpatient and day surgery, elective, urgent and cancer surgery patients was 4.8 months in 2003-04, down from 5.4 months at the end of March, 2003.

Newborn Admissions



Addressing the Wait List for Surgery

INITIATIVE: Building on the gains made in this area in 2002-03, the Health Region, working with Saskatchewan Health and the Saskatchewan Surgical Care Network (SSCN), continued to address surgery wait times.

RESULT: Saskatoon's three hospitals performed 33,063 surgical procedures in 2003-04, about the same number as last year. Defined target time frames for cancer and urgent procedures continued to be met, and at the same time, more complex elective surgeries were performed. The surgery wait list decreased significantly. At the end of March 2004, 14,386 people were waiting for surgery as compared to 16,411 people waiting for surgery at the end of March 2003.

At the end of March 2004, patients waited on average 4.8 months from the time their surgery was booked until the time the procedure was performed. This is down from 5.4 months at the end of March 2003.

Overall, the 10 hospitals in the Health Region performed almost 35,000 surgeries this year. The Health Region also implemented SSCN initiatives, including the utilization of priority scoring tools and the submission of data into the provincial surgical registry.

Addressing Service and Capacity Issues

INITIATIVE: The Health Region is working to ensure we are in a position to manage current and future acute care service demands.

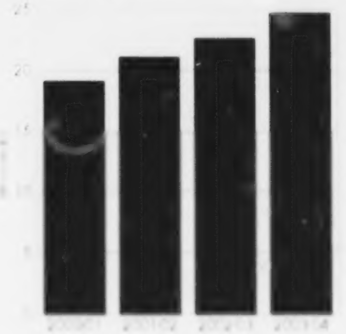
RESULT: A number of staff and physicians have developed options for the organization of hospital services in Saskatoon. Analysis of the options will be completed in 2004-05.

Addressing the Increasing Demand for Renal Dialysis Services

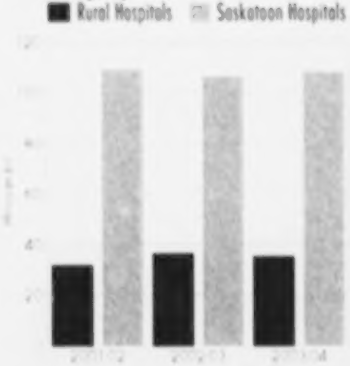
INITIATIVE: The Centre of Excellence in Nephrology (kidney) Services at St. Paul's Hospital continued to expand as the Health Region, in partnership with St. Paul's Hospital, worked on addressing ways to meet the increasing need for dialysis by residents of the Health Region and the province.

RESULT: Working with Saskatchewan Health, a satellite dialysis unit was opened in North Battleford, and two more stations were added to the existing dialysis unit at St. Paul's Hospital. The Health Region will finalize plans to construct and open an additional community-based dialysis unit in the coming year. The Health Region, in partnership with St. Paul's Hospital, provided renal services to an increasing number of people, as the number of hemodialysis procedures increased to 24,673 procedures in 2003-04. This is an increase from the 22,609 procedures completed last year.

Hemodialysis Chart
Number of procedures



Emergency Room Visits



Diabetes education and prevention efforts also continue with the number of patients attending the Chronic Renal Insufficiency Clinic at St. Paul's Hospital growing at a steady pace.

Coordinating Patient/Client Access to Services

INITIATIVE: One of the services provided by Client Patient Access Services (CPAS) is their collaboration with other hospital and community-based staff to ensure timely admission for individuals who require intensive and acute care services. This year CPAS embarked on a project to simplify the transfer process for adult patients requiring intensive care.

RESULT: Planning for a Critical Care Access Line for the Health Region was completed for intensive care patients and implementation of the process and the new 24-hour phone line and process will occur in the coming year.

Continued Services to Rural Residents

INITIATIVE: The transition of rural services into the operations of the new Health Region continued in 2003-04 following regionalization in August 2002.

RESULT: Sufficient funding was again made available to provide services at levels similar to previous years and to continue operation of the rural facilities, including seven hospitals, 13 long term care facilities, and numerous community health and wellness centres.

Providing a Safe Place to Stay

INITIATIVE: As part of the continuum of detoxification services offered at Larson House in Saskatoon, a 12-bed Brief Detox Centre will provide a safe place for persons for a short time following a serious intoxication or drug abuse. Supportive counseling and follow up referrals will be available at the Centre. The Centre will provide further access to addictions counsellors and referrals to appropriate recovery resources, including social setting detoxification, community addiction services, Calder Centre, and self-help groups.

RESULT: Funding for this new facility was secured from the federal government, the City of Saskatoon and the Health Region. Construction will be completed in June 2004 and a program designed by the partners involved will be in place in 2004-05. The Health Region and Larson House will ensure the program and services provided by the Brief Detox Centre are appropriate for the entire community with a significant focus on the Aboriginal community.

Primary Health Care Model Moving Forward

INITIATIVE: A primary health care strategy, to be implemented over four years and including the development of primary health networks and centres, structuring of health provider teams, and the development of individual health promotion programs, was completed and implementation begun. The primary health care approach is directed to offering high quality health services as close to home as possible, at the most appropriate time, provided by the most effective combination of health providers.

Karen Hart, primary health nurse, checks the ear of a client at the White Buffalo Youth Lodge in Saskatoon
FILE PHOTO

RESULT: An agreement with the University of Saskatchewan College of Medicine and the Health Region will see the establishment of a new primary health centre on the west side of Saskatoon. The centre will enhance the training of family medicine residents and help to improve accessibility to health services for residents of west-side neighbourhoods.

The preliminary structure of integrated primary health teams has been defined and a number of family physician groups have volunteered to be involved in the development of complete primary health teams in the coming year.

In addition, in 2003-04 the primary health care model was expanded into three additional primary health centres, for a total of eight now in full operation in the Health Region. The centres are located as follows: Borden Community Health Clinic, Nutana Collegiate, Primary Health Centre - South East Saskatoon, Wynyard Community Health Centre, University of Saskatchewan Student Health Centre, Strasbourg & District Health Centre, West Side Community Clinic, and White Buffalo Youth Lodge.

Meeting the Unique Needs of the Aboriginal Population

INITIATIVE: The Health Region is working to improve and further develop health care initiatives that meet the needs of the Aboriginal population.

RESULT: Several groups are partnering on the annual Aboriginal Diabetes Forum and the Health Region's Diabetes Reference Group to develop a comprehensive response to dealing with the disease that affects the lives of many Aboriginal people. The Health Region partners with White Buffalo Youth Lodge, bringing together services and support for Aboriginal youth at risk.

In community development, work continues on bringing together Aboriginal Healing Foundation projects with addictions and mental health services and to integrate services with primary health teams and the First Nation communities. St. Paul's Hospital has created a First Nation's Prayer and Ceremonial Room and provides Sweetgrass ceremonies upon request. In collaboration with the Health Region, St. Paul's Hospital is creating a committee to address Aboriginal health issues related to the provision of health care services. Focus group testing will be conducted to identify specific Aboriginal health care needs including spiritual health, inclusion issues, primary health care knowledge, and overall health awareness, and an individual to lead these initiatives will be in place in the coming year. Finally, to ensure we continue to move forward in the directions most important to the Aboriginal community, the Health Region will begin work on formalizing an Aboriginal Strategy to guide our service and care into the future.

Long Term Care Placement Continues to Improve

INITIATIVE: In order to enhance the quality of life and care for long term care residents, a complete review of long term care resources was undertaken. The review, expected to be completed in 2005, examines current and future demographics, national bed numbers to population ratios and physical plant status.

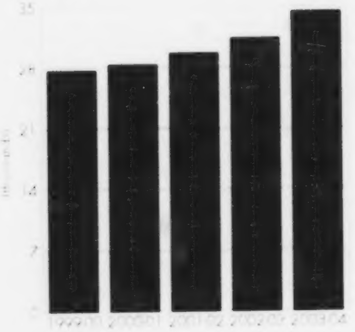
RESULT: There are approximately 2,100 beds located in 20 owned and affiliate long term care facilities in the Health Region. For every 1,000 Health Region residents over the age of 75 years, there are 81 long term care beds. Although this person-to-bed ratio is lower than the national average ratio, the Health Region continues to place clients in long term care facilities within about three weeks of their being added to a long term care facility wait list. In Saskatoon on March 31, 2004, the number of people waiting for a long term care bed was 64 and in the rural area, there were 29 people waiting for a long term care bed.

Utilization of Specific Services in 2003-04

The following numbers demonstrate services provided throughout the entire Health Region, categorized by the total rural area, and the Saskatoon area, with the previous year's number in brackets. Working within resources available, the Health Region provided an increased number of services in most areas listed.

	Rural Area	Saskatoon Area	Saskatoon Health Region
Total patient hospital days	27,868 (26,314)	236,108 (223,427)	263,976 (249,741)
Newborn admissions	152 (150)	3,901 (3,832)	4,053 (3,982)
Inpatient and day surgeries	1,357 (1,597)	33,063 (33,298)	34,420 (34,895)
Emergency room visits	35,193 (36,304)	108,055 (106,447)	143,248 (142,751)
Ambulance calls (life support & inter-facility transfers)	3,180 (2,853)	19,911 (18,345)	22,291 (21,198)
Home care – nursing – hours of service (hands-on)	15,038.75 (14,391.36)	78,711.00 (74,916.75)	93,749.75 (89,308.11)
Home care – meals	53,503 (43,588)	46,923 (50,927)	100,426 (94,515)
Home care – home services – hours of service (hands-on)	79,002.83 (82,144.83)	217,091.00 (220,112.75)	296,093.83 (302,257.58)
Immunizations (all types)	15,220 (13,103)	57,289 (55,580)	72,509 (68,683)
Long term care wait list (as of March 31)	29 (49)	64 (27)	93 (76)

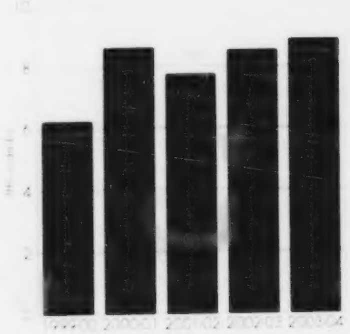
Diagnostic Imaging
CT Scans



The following are some additional utilization numbers in Saskatoon facilities, compared to previous year:

- Diagnostic imaging CT scans = 34,375 (31,363)
- Diagnostic imaging MRI scans = 8,844 (8,509)
- In-house laboratory procedures (Saskatoon) = 7,162,869 (6,960,292)
- Public health inspections (all types) = 2,015 (2,096)
- Number of clients receiving services in community mental health and addictions = 6,838 (6,699)
- Larson House number of clients = 1,100 (924)
- Remote and northern residents accessing health providers via Telehealth services = 284 (217)

Diagnostic Imaging
MRI Scans



Healthy Communities Supported by Health Promotion and Disease Prevention

Responding to Public Health Concerns

Saskatoon Health Region has and continues to develop appropriate responses to current and emerging issues related to public health matters such as West Nile Virus, Severe Acute Respiratory Syndrome and the influenza pandemic.

INITIATIVE: West Nile Virus (WNV) poses a significant risk to humans in areas where the virus is present. Most people infected with WNV experience no symptoms or have mild illness and will recover completely after a few days, but some individuals develop severe illness and may die.

RESULT: There were 61 cases of WNV in our Health Region in 2003-04 – 56 of those were diagnosed as having WNV Fever and five had neurological symptoms. No deaths occurred. The Health Region is working with provincial and municipal governments to reduce the risk of WNV transmission to humans. Specific actions include a comprehensive program of surveillance and mosquito control, with an emphasis on public education and on personal protection to reduce the risk of contracting WNV. The Health Region's response plan is integrated with the Saskatchewan Health Graduated Response Plan.

INITIATIVE: Health experts are predicting a world-wide pandemic flu will occur in the next 5 to 10 years. Based on what has been learned from prior pandemics, a new and more virulent type of flu could develop and span the globe in a matter of months.

RESULT: A comprehensive emergency response plan to manage the effects of a pandemic flu has been developed by the Health Region. The plan identifies how the Health Region would manage a large number of ill patients and the implications of a reduced workforce due to illness, as well as our management of the immunization process once a new immunization for the specific flu virus is developed.

INITIATIVE: The Severe Acute Respiratory Syndrome (SARS) outbreak in Toronto heightened the Health Region's interest in the disease. Although there were no reported cases of SARS in 2003-04, the Health Region continued to work with regional, provincial and national planning groups to develop a contingency plan.

RESULT: A thorough contingency plan for SARS is now complete and has been integrated into the Health Region's emergency preparedness plan. The plan outlines a region-wide response to managing SARS and demonstrates the Region's readiness to deal with SARS if an outbreak occurs.

Promoting a Healthy Lifestyle

The Health Region is working hard on effective health promotion and addressing underlying determinates of health including safe and healthy families, neighbourhoods and communities.

INITIATIVE: Eliminating tobacco smoke from public places is one of the most effective and simple ways to reduce health risks in our environment. The Health Region's Medical Health Officer presented a report, *Tobacco or Health*, to Saskatoon City Council and recommended a 100% non-smoking bylaw for Saskatoon

RESULT: The City of Saskatoon will officially be smoke free as of July 1, 2004. In partnership with the City of Saskatoon, an education and awareness campaign will be conducted in 2004-05. In the rural areas of the Health Region, the City of Humboldt is leading the way in the prohibition of smoking in public places. The Humboldt non-smoking bylaw will take effect in June of 2004. The Health Region conducted an active public education campaign to provide residents with information on the effects of second-hand smoke.

Local school children take part in the Health Region's ***in motion*** active living initiative

FILE PHOTO

INITIATIVE: The ***in motion*** physical activity strategy encourages children, youth, employees and older adults to include physical activity in their daily routines, and also targets the primary prevention of diabetes through healthy living. In 2003-04, the Health Region began the process of expanding this health promotion strategy to the rural areas, and received recognition for its work both at the national and international level.

RESULT: ***in motion*** programs are being held in 90% of Saskatoon public schools and 100% of Catholic schools, involving over 25,000 students. Over 125 employee worksites and over 30 older adult groups are involved. The rural areas of the Health Region are now experiencing the benefits of the program as the expansion to rural communities is underway. The ***in motion*** program was featured in Today's Parent magazine and called a "hero" in the fight against childhood obesity. The program was also chosen as one of North America's five most innovative active aging programs by the International Council on Active Aging.

Managing Disease

INITIATIVE: The Health Region is working on an approach to health care that emphasizes individuals maintaining independence and staying as healthy as possible through prevention, early detection and management of chronic diseases. A coordinated strategy for the management of chronic diseases was developed, and actions put forth in the strategy were implemented.

RESULT: Chronic disease management initiatives progressed and were linked to primary health, prevention activities, and the work of the Health Quality Council. The Health Region is developing a coordinated and effective regional approach to optimize patient care and promote inter-professional collaboration and education. A number of staff have received training and certification to lead volunteers working with groups of patients and clients to develop self-managed health care programs. Informal research is beginning to demonstrate fewer hospitalizations and less reliance on the formal health system for individuals who have been through the program and who have learned how to take personal control of their chronic disease.

INITIATIVE: Health Region staff created a regional multi-disciplinary group of professionals to work together on all aspects of diabetes prevention and early intervention and treatment coordination and follow up. The strategy emphasizes physical activity and good nutrition, and links with home care, acute care and outpatient programs.

RESULT: Methods to reduce the incidence and prevalence of diabetes complications will be designed and the improvement of the quality of life for people with diabetes will be examined. It is hoped that in time, the increasing rates of diabetes being seen throughout the Health Region, the province, and the country will begin to decline.

Quality of Care Indicators

INITIATIVE: A number of indicators can be used to show success in the provision of quality community care to residents of the Health Region. Below are some results that demonstrate measures of success in community care. This data is based on the most recent data available.

RESULT: In 2002-03, 1,163 patients received psychiatric services (this figure includes services provided in Saskatoon hospitals only). The average length of stay was 14.6 days. This data is similar to previous years. The provincial average actual length of stay for patients receiving psychiatric services was 14.8 days (2001-02 data).

In 2003-04, 74% of the 599 inpatient alcohol and drug inpatient treatment cases were successful. The Health Region compares almost equally to the province in terms of success rates. According to provincial figures for 2002-03, 2,164 cases were treated. Of those, 74.6% were completed successfully.

"Successful completion" is difficult to define for outpatient cases, and is based upon individual self-management. However, for outpatient alcohol and drug cases treated, 2002-03 data states that 23.5% of the cases were treated successfully, and 21.4% of problem gambling outpatient cases were treated successfully. Provincially, the success rate for alcohol treatment is 33.3% and 21.4% for gambling cases.

Healthy Workplaces Supported by Measures Including Recruitment and Retention of Health Providers

Effective Human Resource Management

INITIATIVE: Human resource trends in health care and other industries are indicating increases in employee sick and overtime costs. In order to deal with this trend, the Health Region established a multi-disciplinary team to embark on a Region-wide review of labour costs. The Health Region is now working to manage these costs more effectively.

RESULTS: A number of departments including Human Resources, Occupational Health and Safety, Registration and Health Record Services have begun work Region-wide to better manage overtime and sick leave issues through four main initiatives. The initiatives focus on quality of worklife, attendance support, scheduling, management training, and staff coaching and support. Some of the early outcomes of these initiatives include an increased awareness of the impact of labour cost issues by staff and management and a regional approach to attendance support. Further work on this issue will continue in the coming year.

INITIATIVE: Absence due to illness or injury (sick leave) is often used as a measure for a healthy workplace. In order to address potential workplace problems, including among others, psychological stress, low staff morale and employee dissatisfaction, the Health Region completed a review of sick leave as part of the Labour Cost Initiative.

RESULT: The Health Region had an average of 88.52 sick hours paid per full time employee in 2003-04 (including time for medical appointments), and sick leave, as a percentage of total hours paid, was 4.67% (not including time for medical appointments). This compares to the provincial average of 86.27 sick hours per employee. In addition, absence trending reports show the yearly total number of absence paid hours at over 687,000. The Health Region will continue to address the root causes of sick leave and absence in order to improve employee quality of life and the health care system's overall efficiency and cost-effectiveness.

Recruiting and Retaining Health Care Workers

INITIATIVE: Over the past year, through aggressive recruitment initiatives, the number of vacant positions within the health professions has decreased dramatically. The Health Region continues to work collaboratively with the University of Saskatchewan Colleges of Medicine and Nursing and other health science colleges, and the Saskatchewan Institute of Applied Arts and Sciences on the training, development and recruitment of physicians, nurses and other health care professionals.

RESULT: In the 2003-04 fiscal year, the Health Region experienced a net gain of 11 new Saskatoon physicians bringing the number of physicians and specialists working in the Region to about 750. In 2003-04 there was a net increase of 62 registered nurses, and a net increase of 14 licensed practical nurses. Due to great success in recruiting local nursing graduates, the more expensive process of hiring nurses from overseas was limited.

INITIATIVE: The Health Region is working to develop partnerships with private physicians and local communities in an effort to recruit additional family physicians into several rural communities in the Region. These recruitment efforts are being coordinated with the implementation of the Region's Primary Health plan that will support rural physician practices and promote a multidisciplinary team approach to care.

RESULT: Three physicians were recruited for the communities of Wynyard and Humboldt. The total complement of physicians in the rural area of the Health Region is 31, comprising 30 general physicians and one general surgeon. There was a net gain of two registered nurses and six licensed practical nurses in the rural area of the Health Region.

INITIATIVE: The Health Region provided tuition reimbursement and professional development funds to support employee upgrading for programs required as a qualification for jobs in the Health Region, and to increase opportunities for employees to participate in conferences, conventions and seminars.

RESULT: There were 131 employees who benefited from the tuition reimbursement fund to a maximum of $500. Several hundred employees participated in professional development opportunities.

Leslie Meister, home care nurse, visits a client in Humboldt

File photo

Reducing Injuries in the Workplace

INITIATIVE: In order to decrease the number of staff injuries related to transfers, lifts and repositions of patients, clients and objects, the Health Region committed an additional $100,000 in 2003-04 to invest in equipment for the Health Region's successful "Transferring, Lifting and Repositioning (TLR)" training program.

RESULT: Incidents related to transferring, lifting and repositioning patients at both the Parkridge Centre and Saskatoon City Hospital continue to decrease. The ongoing effectiveness of the program is being audited and any necessary changes are being made to ensure the continued reduction in workplace incidents. Training is planned to begin at St. Paul's Hospital and other facilities in the coming year.

Representative Workforce Initiatives

INITIATIVE: Saskatoon Health Region is fully committed to achieving a representative workforce of Aboriginal people. A number of initiatives with both staff and students are underway to address workforce issues.

RESULTS: Cultural and awareness training continues for staff and in 2003-04, 690 staff received awareness training on topics from representative workforce planning to Sweat Lodge ceremonies. A Joint Union/Management Advisory Committee, with representatives from all unions and various department managers, was established to review and advise the Health Region on Aboriginal specific initiatives. Finally, through monthly meetings of the Aboriginal Network, staff are sharing, networking and supporting each other. Throughout the year, the Health Region continued to develop, implement and evaluate initiatives for students. Through a partnership with Bedford Road Collegiate in Saskatoon, where 26% per cent of students are Aboriginal, we are working to promote health care careers and create better linkages between workplaces and students. Health Region Aboriginal staff shared career information with a number of Aboriginal high school students and also led the students on tours of the acute care sites. The Junior Volunteer Program at St. Paul's Hospital, directed at Aboriginal youth, has 107 youth enrolled as volunteers. Finally, in partnership with Dumont Technical Institute and the Saskatchewan Indian Institute of Technology, the Health Region continues to deliver and provide clinical placements for the licensed practical nursing program.

It is estimated that the number of people of Aboriginal ancestry working for the Health Region is about 3% of total workforce.

Healthy Operations, Working Within the Limits of Available Resources and Improving Efficiency and Accountability for the Use of those Resources

Continuing Work on Transition

INITIATIVE: The transition from the four former Health Districts to one Health Region continued throughout 2003-04.

RESULT: In order to align management resources consistently throughout the rural health services portfolio and to promote efficient and effective use of the available resources, the integration of the rural health services management into a single coordinated structure was completed. This now positions the Health Region for future integration of clinical service delivery structures and service standards across the Health Region.

In order to fully integrate St. Elizabeth's Hospital in Humboldt into the regional management and service delivery structure, a partnership agreement was established and will be finalized in the coming year. Two committees will develop the functional plan for the integration of the Hospital's clinical and support programs.

To complete the integration of Clinical and Operations Support services across the Health Region, service standards and performance measures are being developed in conjunction with the Asset Management program. This project will redefine the work performed in these departments. The regional integration of services in public health, long term care, mental health and addictions is also proceeding.

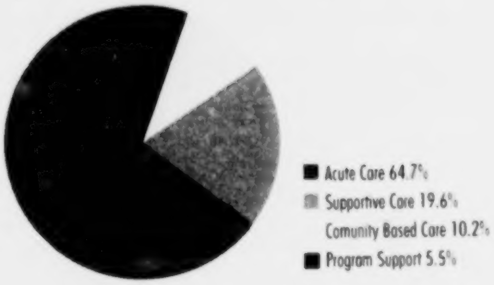
Progress has also been made in consolidating new regional purchasing contracts, the provision of clinical engineering services across the Health Region, the provision of laundry services to owned hospitals, and in defining clinical supports in rural areas (focused on lab and diagnostic imaging).

Managing the Provision of Quality Health Care Services Within Available Resources

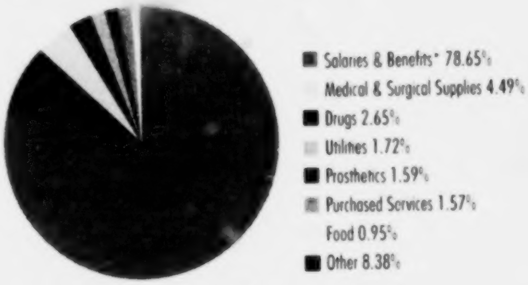
INITIATIVE: The Health Region worked diligently throughout the year to balance increasing demand for services within the financial and human resource realities of the day.

RESULT: The Health Region ended the 2003-04 fiscal year in a deficit of $6.4 million, equal to 1.2% of the annual operating budget of $536 million. This over-expenditure was due to higher than expected volume increases in a number of service areas, short term costs associated with filling vacancies in the health care professions, and changes in clinical protocols and infection control measures.

Operational Expenditures by Service Groupings



Operational Expenditures by Category



* includes grants to third parties, medical remuneration and benefits.

Managing Organizational Quality

Accreditation

Between 2000 and 2002, each of the four previous health districts was awarded and maintained Accreditation status. Using the four dimensions of quality – responsiveness, system competency, client/community focus, and worklife – an accreditation survey by the Canadian Council on Health Services Accreditation will take place in December 2004.

Dr. Joseph Blondeau, clinical microbiologist, and Holly Forski, lab technologist, provide services within the clinical, teaching and research environment supported by the Health Region and the Saskatchewan Academic Health Sciences Network

FILE PHOTO

Reporting

INITIATIVE: Consistent with a strong commitment to risk management and patient safety, the Health Region participated in provincial and regional planning and organizational work related to establishing a critical incident reporting process. This reporting is required in order to comply with Section 58 of *The Regional Health Services Act* and its corresponding regulations. Saskatoon Health Region has had a voluntary incident reporting system in place since 2002.

RESULT: The Health Region completed preliminary work on critical incident reporting policy and procedures and will finalize the framework and process in the coming year so that critical incidents are reported to the Regional Health Authority and to Saskatchewan Health on a timely basis. The Health Region will investigate a reported critical incident through a multidisciplinary review and will then report on actions taken and planned, including quality improvements to be implemented as a result of the critical incident review.

Work with Health Quality Council

INITIATIVE: Cooperate with the Health Quality Council including the appropriate sharing of information and proactively identifying trends and issues of concern to the Council.

RESULT: The Health Region established a new Quality Services function in early 2004 to provide organization-wide leadership for quality improvement work and to ensure a strong working relationship with the Health Quality Council. We have built a solid foundation of communication and sharing of information and ideas with the Council, actively supporting its efforts to focus attention on priority health care quality issues in the province. This sharing has included the results of a number of our own quality improvement initiatives.

Addressing Health Care Concerns

INITIATIVE: The Health Region works towards the resolution of quality of health care concerns through a Client Representative (Quality of Care Coordinator). The Client Representative assists individuals and staff/caregivers with questions or concerns about health services, patient rights and obligations, and uses patient feedback to recommend changes or improvements to enhance the quality of health services provided.

RESULT: In 2003-04, the Client Representative investigated 613 inquiries on issues including access, care delivery, communication, cost, environment, and others. These inquiries were based on approximately 468,000 health services provided in Saskatoon in 2003-04 in the following service areas: surgery, medicine, ambulatory care, emergency and pre-hospital services, women's and children's health, home care, addiction services, primary health care, palliative care, rehabilitation, continuing care, geriatrics, and mental health services. This means that 0.001% or just over 0.5 of every 1,000 services provided resulted in a health care concern. The majority of the concerns (85.3%), were resolved in less than 30 days, with an average resolution time of 7.5 days.

Managing Risk

INITIATIVE: Develop and implement a risk management program that includes risk identification and assessment, and reporting/evaluation.

RESULT: Early in 2004, Saskatoon Health Region took steps to enhance its approach to risk management, building on the foundation of insurance programs, incident reporting, risk consultation, risk assessment, and risk management education that had been in place historically. Risk Management is now linked with our new Quality Services function as part of our Corporate Support portfolio, recognizing the inherent relationship between the effective management of risk and the provision of quality services.

Addressing Asset and Capital Issues

INITIATIVE: The Health Region developed long term integrated asset and capital management plans and decision support systems and is working on the development of a long term capital plan.

RESULT: The asset management program completed its pilot project over the winter months and will be fully developed and implemented in 2004-05. A complete inventory of clinical equipment will be taken this summer; building systems, space, information technology and support equipment will follow. Service standards and performance measures related to operating these assets are being developed.

Innovation and Integration of Service, Education, and Research

Working with Members of the Saskatchewan Academic Health Sciences Network

INITIATIVE: The Health Region continues to work with members of the Saskatchewan Academic Health Sciences Network (SAHSN) on issues including health sciences education, research, physician resource planning, single physician headships, alternative funding plans, residency training, primary health care and Telehealth capacity.

RESULT: An Affiliation Agreement between the Health Region and the SAHSN is being further developed. This Agreement will provide a framework for addressing a number of key issues including the development of a common physician resource plan, the establishment of single College of Medicine and Health Region medical departments and joint processes for aligning research policies.

The Health Region continues discussions with Saskatchewan Health regarding payment for physician services, and extending the SAHSN into the community with the goal of better integrating family physicians into the Health Region's planning processes.

Contributing to Western Canada Health Region Teamwork

INITIATIVE: The Health Region continues to take a leadership role in the Western Canada Waiting List Project, a collaborative undertaking by medical associations, ministries of health, regional health authorities, and health research centres.

RESULT: Priority-criteria tools for determining differing levels of patient urgency and ability to benefit have been developed for the five clinical specialty areas (children's mental health, cataract surgery, general surgery, hip/knee replacement surgery, and MRI scanning).

CHALLENGES AND FUTURE DIRECTIONS

Jocelyn Crossman, dialysis unit nurse, helps a patient with his hemodialysis at St. Paul's Hospital FILE PHOTO

As referred to throughout this report, the 2003-04 fiscal year saw large volume increases in a number of health service areas. The environmental scan shows the Health Region is experiencing sustained population growth and therefore, the Health Region can expect to continue to experience volume increases in all areas.

Given the growing demand for service, fiscal constraints, and the competition for health care providers, the ongoing ability to provide timely access to services will continue to be a major challenge for health care organizations across the country. We will continue to work both internally, and with partners such as Saskatchewan Health, the Health Quality Council, the Saskatchewan Academic Health Sciences Network, and other provinces, to monitor quality and improve the alignment of health care services and available resources. Our goal is to continue to provide the appropriate levels of health care services and to improve the health status of the residents of the Health Region, despite the challenges we face.

Initiatives in our chronic disease management portfolio will pave the way for individuals suffering from chronic illnesses, to learn how to better self-manage their health, thereby reducing their need for repetitive health care services. The Health Region's 2004 Health Status Report will provide us with valuable information regarding this effort, and allow us to further develop and implement initiatives based on the health of our region's residents.

MANAGEMENT DISCUSSION AND ANALYSIS

The Saskatoon Health Region continues to face challenges in fulfilling our mandate to deliver integrated health care services that meet the needs of the residents of the Health Region and the province, in an academic environment and with limited resources.

In 2003-04, the Health Region saw an increase in volumes in all major areas of service delivery.

How Future Implications and Events are Affected by Past Results

The Saskatoon Health Region ended 2003-04 with a deficit of $6.4 million. This deficit was mainly due to increased demand for health care services. These costs will carry forward into 2004-05 and provide increased pressures on the organization as we determine how to better align our human and financial resources to meet growing service needs, and to balance our budget in the face of these challenges.

Meeting Commitments and Financial Obligations

Although the Health Region was unable to balance its revenues and expenditures in 2003-04, the Health Region did end the year with a much smaller deficit than was forecast mid-year. In the latter half of the year, a number of management initiatives were put in place to attempt to reduce the deficit and met with varying degrees of success. Our vacation management plan was extremely successful and netted reduced costs in the range of $1 million. Vacancy management and other cost containment initiatives provided savings in the range of $0.8 to $1.0 million. Saskatchewan Health provided additional funding for increased benefit costs in the amount of $1.2 million.

Current Financing Arrangements

The Saskatoon Health Region completed construction on the parkade addition at the Royal University Hospital, which is being financed over a ten-year period from parkade revenue.

Variances from Plan

The significant variances from the plan in 2003-04 related to increased demands for service and changes in method of delivery of services. For example, the Health Region performed a larger number of more complex surgeries during the year as compared to last year. As well, a significant number of more expensive cases such as neurology, cardiovascular and orthopedic surgery were performed during the year at an additional cost of $3 to $4 million.

The Health Region's departments of emergency, maternal and children's service, nephrology, and ambulatory services also managed a higher volume of patients/clients than in previous years.

Capital Construction Impacts

A number of significant construction projects are being planned throughout the Health Region. Some examples of projects include the required expansion and re-development of the Royal University Hospital ground floor, a new space that consolidates all of Mental Health inpatient services, and St. Elizabeth's Hospital in Humboldt. The Health Region is also addressing priorities in long term care facility construction.

Major Risks and Implications

Saskatoon Health Region faces similar risks to other health care providers in the province as well as unique issues due to our role as a provincial resource. We continue to face increasing service demands, capital equipment and building pressures, and cost increases especially in the areas of pharmaceuticals, prosthetics, supplies, and salaries and benefits.

Human Resource shortages have driven up both overtime and sick time costs. In addition, changing technologies are having an impact on the way service is delivered and the cost of those services.

The demand for diagnostic services and surgical procedures continues to grow at a significant rate.

Dr. Ronan Conlon, opthamologist, discusses eye surgery with a patient at Saskatoon City Hospital FILE PHOTO

HEALTH CARE ORGANIZATIONS AND OTHER THIRD-PARTY RELATIONSHIPS

Saskatoon Health Region has a large number of other service providers that assist our Health Region is fulfilling our vision, mission, values and goals.

The Health Region's relationship with long term care affiliates is the largest partnership. These long term care affiliates provide Level 3 and 4 care to residents and include:

Bethany Pioneer Village
Central Haven Special Care Home Inc.
Circle Drive Special Care Homes Inc.
Duck Lake and District Nursing Home Inc.
Jubilee Residences Inc. (Stensrud)
Jubilee Residences Inc. (Porteous)
Lakeview Pioneer Lodge
Langham Senior Citizen's Home
Luthercare Communities
Mennonite Nursing Home
Oliver Lodge
Preston Nursing Home, Extendicare Inc.
Saskatoon Convalescent Home
Sherbrooke Community Society Inc.
Spruce Manor Special Care Home Inc.
St. Ann's Senior Citizen's Village Corp.
St. Joseph's Home for the Aged
Strasbourg and District Health Centre
Sunnyside Adventist Care Centre
Warman Mennonite Special Care Home

The Health Region has agreements with and grants funding to the following community-based organizations and third parties to provide health services:

M.D. Ambulance Care Ltd.
Saskatoon Housing Coalition, Inc.
Larson Intervention House
Humboldt and District Ambulance Services
Saskatoon Crisis Intervention Services, Inc.
Midway Ambulance Care Ltd.
Rosthern and District Ambulance
Hansen's Ambulance Service
Shamrock Ambulance Care Inc.
Wynyard and District Health Clinic
Quill Plains Ambulance Care Ltd.
Wakaw Ambulance Service
George Bailey Counselling Centre
Crocus Cooperative
Canadian Mental Health Association
Lanigan and District Ambulance Association
Saskatoon Society for Autism Inc.
Senior Sisters of Sion Residence

In addition, the Health Region has partnerships with two acute care facilities, St. Paul's Hospital in Saskatoon and St. Elizabeth's Hospital in Humboldt. The Health Region and St. Paul's Hospital have a Joint Service Management Partnership and Memorandum of Mutual Understanding and Intent. Under this agreement, the Health Region and St. Paul's each have responsibility for the management of designated care groups and support services across the Health Region. St. Paul's Hospital manages pre-hospital and emergency services, laboratory services, medical imaging and nuclear medicine services, palliative care services, renal services, food and nutrition services, pharmaceutical services, and spiritual care services for the Region. Under this joint management concept, funding to St. Paul's is integrated with overall Health Region funding.

St. Elizabeth's Hospital in Humboldt provides acute care services to the residents of Humboldt and surrounding areas. St. Elizabeth's is the major acute care presence in the rural area of the Health Region. The Hospital provides quarterly financial statements and is accountable to the Health Region for the volume of service performed and outcomes achieved.

SHARING INFORMATION WITH THE PUBLIC

As part of the Health Region's commitment to providing information to the public in a timely, proactive manner, 60 releases were issued to media throughout the Region in 2003-04. The list of announcements follows.

- Organ and Tissue Awareness Week Kicks Off at St. Paul's Hospital
- Region Volunteer Attends Canadian Forum on Volunteerism
- Breaking Ground for Saskatoon City Hospital Rependa Memorial Education Resource Centre

- Rehabilitation Programs Receive International Recognition
- Saskatoon Health Region Receives National Recognition in New Book on Health Care Excellence and Innovation
- Health Region Reviewing Options in Light of Provincial Budget Announcement

Other significant communication projects in 2003-04 include:

The Health Show

The Health Show, a co-production of Saskatoon Health Region and Shaw TV, began its third season in January 2004. The Health Show brings local health professionals and residents together to highlight local services and health issues. More than 70 new topics were covered in 2003-04, involving more than 145 staff and community members. Saskatchewan's cable, wireless, digital and satellite television networks now broadcast the program across the province through a new partnership with the Saskatchewan Communications Network.

Client/Patient Information Directory

A new directory was created to provide patients and their families and visitors access to information about hospital facilities and services provided by the Saskatoon Health Region. Thanks to the generous support of community businesses and other organizations, the Directory was produced at no cost to the Health Region.

Public Authority Meetings

The Health Region continued to conduct monthly Saskatoon Regional Health Authority public meetings. Audiences were advised of the meetings through newspaper advertisements and media advisories.

CONCLUSION

As discussed throughout this report, the year 2003-04 was a challenging one for Saskatoon Health Region. Through cooperation with our Authority, senior leadership, staff and partners, we met the demands placed on our system and continued to provide the residents of our Health Region with quality health care services.

We have confidence that the residents of our Health Region will continue to play a proactive role in taking responsibility for their health and we are dedicated to continuing to work with them and all of our partners to ensure a healthy community, healthy workplace and healthy operations.

MANAGEMENT REPORT

Saskatoon Health Region
Report of Management

The accompanying financial statements are the responsibility of management and have been approved in principle by the Authority. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles and the Financial Reporting Guide issued by Saskatchewan Health, and of necessity include some amounts that are based on estimates and judgments. The financial information presented in the Management's Discussion and Analysis and elsewhere in this report is consistent with that in the financial statements. A list of payments related to employees, Authority Members, suppliers and third-party agencies is available by contacting the Regional Health Authority at 655-1029.

Management maintains appropriate systems of internal control, including policies and procedures, which provide reasonable assurance that the Region's assets are safeguarded and that financial records are relevant and reliable.

The Authority Members carry out their responsibility for the financial statements through the Audit Committee. This Committee meets with management to discuss and review financial matters. The appointed auditor has full and open access to the Audit Committee.

The appointed auditor conducts an independent audit of the financial statements. His/her examination is conducted in accordance with Canadian Generally Accepted Auditing Standards and includes tests and other procedures, which allow him/her to report on the fairness of the financial statements.

AUDITORS' REPORT TO THE AUTHORITY MEMBERS

We have audited the statement of financial position of Saskatoon Regional Health Authority as at March 31, 2004 and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at March 31, 2004 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

See accompanying notes to financial statements

1. Legislative authority:

On August 1, 2002, the Legislative Assembly passed *The Regional Health Services Act* (the Act). The Act created the Regional Health Authorities for the purpose of governing the delivery of health services as well as establishing and governing Health Regions in the province of Saskatchewan.

On coming into force, the Act terminated the membership of the individual District Health Boards. All assets, liabilities, rights, and obligations of the District Health Boards continued as the assets, liabilities, rights, and obligations of the Regional Health Authority. All contracts with the District Health Boards remain in effect until repealed or replaced by the Regional Health Authorities.

The Saskatoon Regional Health Authority ("SRHA") was created by the Act. SRHA is responsible for the planning, organization, delivery and evaluation of health services it is to provide (The Act, Section 27) within the geographic area known as the Saskatoon Health Region.

2. Significant accounting policies:

These financial statements are prepared in accordance with Canadian generally accepted accounting principles and include the following significant accounting policies.

(a) Health Care Organizations:

i) SRHA has entered into a Joint Service Management Partnership and a Memorandum of Mutual Understanding and intent with one of its affiliates, St. Paul's Hospital (Grey Nuns) of Saskatoon ("St. Paul's"). Within these agreements, SRHA and St. Paul's were each given responsibility for the management of designated care groups and support services. As a result of this relationship, the financial statements of St. Paul's have been consolidated with the financial statements of SRHA. Transactions between SRHA and St. Paul's and inter-organization balances have been eliminated.

2. Significant accounting policies - continued:

(a) Health Care Organizations - continued:

ii) In addition to St. Paul's, SRHA has entered into affiliation agreements with the following healthcare organizations:

Bethany Pioneer Village Inc.
Central Haven Special Care Home Inc.
Circle Drive Special Care Home Inc.
Duck Lake and District Nursing Home Inc.
Jubilee Residence Inc. (Stensrud Lodge)
Jubilee Residences Inc. (Porteous Lodge)
Lakeview Pioneer Lodge Inc.
Luther Care Communities (Lutheran Sunset Home)
Mennonite Nursing Home Inc.
Oliver Lodge
Saskatoon Convalescent Home
Sherbrooke Community Society Inc.
Spruce Manor Special Care Home Inc.
St. Ann's Senior Citizens Village Corporation
St. Elizabeth's Hospital of Humboldt
St. Joseph's Home for the Aged
Strasbourg and District Health Centre
Sunnyside Adventist Care Centre
Warman Mennonite Special Care Home Inc.

SRHA provides annual grant funding to these organizations for the delivery of health care services. Consequently, the SRHA has disclosed certain financial information regarding these affiliates.

These affiliates are not consolidated into the SRHA financial statements. Note 10 b) i) provides supplementary information on the financial position, results of operations, and cash flows of these affiliates.

2. Significant accounting policies - continued:

(a) Health Care Organizations - continued:

iii) The SRHA has agreements with and grants funding to the following community based organizations (CBOs) and third parties to provide health services:

Preston Nursing Home, Saskatoon of Extendicare (Canada) Inc.
M.D. Ambulance Care Ltd.
Saskatoon Housing Coalition, Inc.
Larson Intervention House
Langham Senior Citizens Home
Humboldt and District Ambulance Service
Saskatoon Crisis Intervention Services, Inc.
Midway Ambulance Care Ltd.
Rosthern and District Ambulance
Hansen's Ambulance Service
Shamrock Ambulance Care Inc.
Wynyard and District Health Clinic
Quill Plains Ambulance Care Ltd.
Wakaw Ambulance Service
George Bailey Counselling Centre
Crocus Cooperative
Canadian Mental Health Association
Lanigan and District Ambulance Association
Saskatoon Society for Autism Inc.
Senior Sisters of Sion Residence

Note 10 b) iii) provides disclosure of payments to CBOs and third parties.

2. Significant accounting policies - continued:

(b) Foundations:

The following Foundations raise funds exclusively for programs and equipment for facilities under the SRHA:

Royal University Hospital Foundation Inc.	Watrous Community Health Foundation Inc.
Saskatoon City Hospital Foundation Inc.	Last Mountain Pioneer Home Inc.
St. Paul's Hospital Foundation Inc.	Rosthern Hospital Foundation Inc.

The Foundations are incorporated under *The Non-Profit Corporations Act* and are registered charities under *The Income Tax Act*.

These financial statements do not include the financial activities of the Foundations. Note 10 b) ii) describes the financial position and results of operations and cash flows of these Foundations.

(c) Fund accounting:

The accounts of SRHA are maintained in accordance with the restricted fund method of accounting for contributions. For financial reporting purposes, accounts with similar characteristics have been combined into the following major funds:

i) Operating Fund

The operating fund reflects the primary operations of SRHA including revenues received for provision of health services from Saskatchewan Health - General Revenue Fund, and billings to patients, clients, the federal government and other agencies for patient and client services. Other revenue consists of donations, recoveries, and ancillary revenue. Expenses are for the delivery of health services.

ii) Capital Fund

The capital fund is a restricted fund that reflects the equity of SRHA in capital assets after taking into consideration any associated long-term debt. The capital fund includes revenues received from Saskatchewan Health - General Revenue Fund designated for construction of capital projects and/or the acquisition of capital assets. The capital fund also includes donations designated for capital purposes by the contributor. Expenses consist primarily of amortization of capital assets.

2. Significant accounting policies - continued:

(c) Health Care Organizations - continued:

iii) Community Trust Fund

The community trust fund is a restricted fund that reflects community-generated assets transferred to SRHA in accordance with the pre-amalgamation agreements signed with the amalgamating health corporations. The assets include cash and investments initially accumulated by the health corporations in SRHA from donations or municipal tax levies. These assets are accounted for separately and use of the assets is subject to restrictions set out in pre-amalgamation agreements between SRHA and the health corporations.

(d) Revenue:

Unrestricted contributions are recognized as revenue in the operating fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Restricted contributions related to general operations are deferred and recognized as revenue of the operating fund in the year in which the related expenses are incurred. All other restricted contributions are recognized as revenue of the appropriate restricted fund in the year.

(e) Capital assets:

Capital assets are recorded at cost. Normal maintenance and repairs are expensed as incurred. Capital assets, with a life exceeding one year, are amortized on a straight-line basis over their estimated useful lives as follows:

Asset	Rate
Buildings	2.5% to 10%
Land improvements and leasehold improvements	5% to 10%
Equipment	10% to 20%

Donated capital assets are recorded at their fair value at the date of contribution if fair value can be reasonably determined.

(f) Inventory:

Inventory consists of medical and surgical supplies, drugs, laboratory supplies, linen and other general supplies. All inventories are valued at cost as determined on the weighted average basis.

2. Significant accounting policies - continued:

(g) Investments:

Investments are valued at the lower of cost or net realizable value.

(h) Pensions:

Employees of SRHA participate in several multi-employer defined pension plans or a defined contribution plan. SRHA follows defined contribution plan accounting for its participation in the plans. Accordingly, SRHA expenses all contributions it is required to make in the year.

(i) Measurement uncertainty:

These financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. In the preparation of financial statements, management makes various estimates and assumptions in determining the reported amounts of assets and liabilities, revenues and expenses and in the disclosure of commitments and contingencies. Changes in estimates and assumptions will occur based on the passage of time and the occurrence of certain future events. The changes will be reported in earnings in the period in which they become known.

3. Capital assets:

			2004	2003
	Cost	Accumulated amortization	Net book value	Net book value
Land	$ 1,074	$ -	$ 1,074	$ 1,074
Land improvements	2,209	2,102	107	233
Buildings	397,193	200,285	196,908	200,821
Furniture and equipment	212,838	186,659	26,179	34,831
Construction in progress	7,067	-	7,067	12,381
	$ 620,381	$ 389,046	$ 231,335	$ 249,340

4. Commitments:

a) Capital asset acquisitions

At March 31, 2004, commitments for acquisition of capital assets and improvements were $4.6 million.

b) Saskatoon Square Limited Partnership

SRHA holds a 10% interest in the Saskatoon Square Limited Partnership. SRHA's share of earnings from the partnership are accounted for on the equity basis and were not significant at March 31, 2004.

In addition to its interest in the partnership, SRHA has entered into a 10 year lease for office space for $250 thousand per year, included in operating lease commitments below.

c) Operating leases

Minimum annual rentals under operating leases and maintenance contracts on property and equipment over the next five years are as follows:

2005	$ 7,317
2006	7,095
2007	7,095
2008	7,095
2009	7,095

5. Contingencies:

SRHA, along with others, is a defendant to several claims which have been brought against it over the years as a result of its medical operations. SRHA believes these claims are without merit or are covered by insurance and accordingly has not made any provision for losses in their accounts. Settlements, if any, in excess of insurance coverage, would be accounted for as a charge against operations in the period in which settlements arise.

6. Long-term debt:

Title of Issue	Interest Rate	Monthly Repayment Terms (not in thousands)	2004	2003
Manitou Lodge, Watrous - CMHC mortgage	8.0%	$1,391 principal and interest. Mortgage renewal and due date August 1, 2025	$ 173	$ 176
St. Mary's Villa, Humboldt - CMHC mortgage	8.0%	$4,213 principal and interest. Mortgage renewal and due date March 1, 2027	537	545
Puffer Special Care Home Corporation, Nokomis - CMHC mortgage	6.5%	$4,136 principal and interest. Mortgage renewal date February 1, 2005, due date November 1, 2021	525	541
Pleasant View Care Home, Wadena - CMHC mortgage	6.5%	$16,428 principal and interest. Mortgage renewal date February 1, 2005, due date November 1, 2024	2,262	2,313
Cudworth Nursing Home, Cudworth - CMHC mortgage	6.9%	$1,183 principal and interest. Mortgage renewal and due date August 1, 2019	136	140
Quill Plains Centennial Lodge, Watson - CMHC mortgage	7.5%	$662 principal and interest. Mortgage renewal and due date February 1, 2023	81	83
Quill Plains Centennial Lodge, Watson - CMHC mortgage	5.4%	$645 principal and interest. Mortgage renewal and due date September 1, 2016	71	75
Central Parkland Lodge, Lanigan - CMHC mortgage	8.0%	$2,341 principal and interest. Mortgage renewal and due date August 1, 2025	291	296

6. Long-term debt - continued:

Title of Issue	Interest Rate	Monthly Repayment Terms (not in thousands)		2004	2003
Golden Acres, Wynyard - CMHC mortgage	7.6%	$852 principal and interest. Mortgage renewal and due date August 1, 2023		104	107
Golden Acres, Wynyard - CMHC mortgage	5.4%	$255 principal and interest. Mortgage renewal and due date December 1, 2016		28	30
RM of Kutawa, Wynyard - CUCORP Commercial Loan	6.9%	$380 principal and interest. Due on demand		20	23
RM of Big Quill, Wynyard - CUCORP Commercial Loan	6.9%	$3,888 principal and interest. Due on demand		113	152
RUH Parkade Expansion, Saskatoon - RBC Banker's Acceptance	5.8%	Revolving credit facility renewable annually to June, 2013		8,195	5,885
Del Haven Loan, Saskatoon - RBC Commercial Loan	Prime + 1%	$7,790 principal and interest. Due on demand		185	265
Sterling Building, Saskatoon - RBC Commercial Mortgage	8.1%	$15,826 principal and interest. Mortgage renewal and due date March 1, 2005		1,709	1,760
Sterling Building, Saskatoon - RBC Term Loan, unsecured	Prime	$9,197 principal and interest. Due on demand		510	594
				14,940	12,985
Less current portion				10,832	7,061
			$	4,108	$ 5,924

6. Long-term debt - continued:

SRHA has reduced its exposure to interest rate fluctuations by entering into an interest rate swap on the full amount of its revolving credit facility for the RUH Parkade expansion. The interest rate swap effectively fixes the interest rate on the debt at 5.8% until June, 2013.

The fair value of the interest rate swap is recorded on the statement of financial position with changes in fair value reflected as capital fund expense. At March 31, 2004, the market value loss on the interest rate swap was $621 thousand.

For each of the CMHC mortgages, the SRHA has pledged the related buildings as security. An assignment of rental revenue has also been taken as security on the Nokomis Health Centre CMHC Loan. CUCORP loans are secured by the assignment of future funding from rural municipalities. The Royal Bank loans are secured by general securities agreements and assignments of rents and leases.

Principal repayments required in each of the next five years and thereafter are estimated as follows:

2005	$	10,832
2006		107
2007		114
2008		122
2009		131
Thereafter		3,634
	$	14,940

7. Deferred revenue:

	Balance beginning of year	Less amount recognized from Health	Add amount received from Health	Less amount recognized from other sources	Add amount received from other sources	Balance end of year
Acute	$ 1,961	$ (1,176)	$ 244	$ (29)	$ 60	$ 1,060
CHIPP (Telehealth)	781	(1,359)	811	-	-	233

9. Trust accounts:

SRHA administers funds held in trust for clinical research and patients and residents using SRHA's facilities. The total cash held in trust as at March 31, 2004 was $3,247 (2003 - $2,960). These amounts are not reflected in the financial statements.

10. Related parties:

These financial statements include transactions with related parties. SRHA is related to all Saskatchewan Crown Agencies such as departments, corporations, boards and commissions under the common control of the Government of Saskatchewan. SRHA is also related to non-Crown enterprises that the Government jointly controls or significantly influences. In addition, SRHA is related to other non-Government organizations by virtue of its economic interest in these organizations.

10. Related parties - continued:

a) Related party transactions:

Transactions with these related parties are in the normal course of operations. Amounts due to or from and the recorded amounts of the transactions resulting from these transactions are included in the financial statements and the table below. They are recorded at the standard rates charged by those organizations and are settled on normal trade terms.

	2004	2003

In addition, SRHA pays Provincial Sales Tax to the Saskatchewan Department of Finance on all its taxable purchases. Taxes paid are recorded as part of the cost of those purchases.

10. Related parties - continued:

b) Health Care Organizations

i) Affiliates

The Act makes SRHA responsible for the delivery of health services in its region including the health services provided by privately owned affiliates. The Act requires affiliates to conduct their affairs and activities in a manner that is consistent with, and that reflects, the health goals and objectives established by SRHA. The following presentation discloses the amount of funds granted to each affiliate:

	2004	2003
Operating:		
Sherbrooke Community Society Inc.	10,818	10,277
St. Elizabeth's Hospital of Humboldt	7,074	6,800
Luther Care Communities (Lutheran Sunset Home)	4,884	4,706
Oliver Lodge	3,104	2,990

i) Affiliates - continued

Saskatchewan Health requires additional reporting in the following financial summaries of the affiliate entities as at March 31, 2004 and 2003 and for the years then ended:

	2004	2003
Financial position:		
Assets	$ 9,744	$ 17,560
Net capital assets	31,684	32,461
Total assets	$ 41,428	$ 50,021
Total liabilities	$ 30,128	$ 37,245
Fund balances	11,300	12,776
	$ 41,428	$ 50,021
Results of operations:		
SRHA grant	$ 53,513	$ 51,029
Other revenue	20,545	27,296
	74,058	78,325
Salaries and benefits	61,381	64,609
Other expenses	14,153	14,900
	75,534	79,509
Deficiency of revenue over expenses	$ (1,476)	$ (1,184)

Other expenses include amortization of $2,327 (2003 - $2,376).

	2004	2003
Cash flows:		
Cash from operations	$ 2,182	$ 1,404
Cash used in financing activities	(503)	(1,403)
Cash used in investing activities	(2,320)	(462)
Decrease in cash	$ (641)	$ (461)

Cash used in investing activities includes capital purchases of $1,550 (2003 - $2,736).

10. Related parties - continued:

b) Health Care Organizations - continued:

ii) Fundraising foundations

During the year, foundations provided funding of approximately $3.9 million (2003 - $1.0 million) for programs and capital acquisitions reported in donation and ancillary revenue.

In addition, the foundations provided education and research funding to employees of SRHA of $692 (2003 - $947 thousand) which is not reflected in these financial statements.

The following represents the financial position, results of operations and cash flows for the foundations which have not been consolidated in these financial statements:

	2004	2003
Financial position:		
Assets	$ 18,372	$ 16,397
Liabilities	806	369
Fund balances	17,566	16,028
	$ 18,372	$ 16,397
Results of operations:		
Revenue	$ 8,706	$ 6,463
Expenses	(7,168)	(3,974)
Excess of revenue over expenses	$ 1,538	$ 2,489
Cash provided by (used in):		
Operations	$ 3,186	$ 3,174
Financing and investing activities	(1,650)	(2,539)
Increase in cash	$ 1,536	$ 635

10. Related parties - continued:

b) Health Care Organizations - continued:

iii) Community Based Organizations and Third Parties

SRHA has also entered into agreements with CBOs and third parties to provide health services. These organizations receive operating funding from the SRHA on a monthly basis in accordance with budget amounts approved annually. During the year, SRHA provided the following amounts to CBOs and third parties:

	2004	2003
Preston Nursing Home, Saskatoon of Extendicare (Canada) Inc.	$ 2,637	$ 2,511
M.D. Ambulance Care Ltd.	2,217	1,817
Saskatoon Housing Coalition, Inc.	568	541
Larson Intervention House	535	503
Langham Senior Citizens Home	456	467
Humboldt and District Ambulance Service	389	357
Saskatoon Crisis Intervention Services, Inc.	305	290
Midway Ambulance Care Ltd.	298	293
Rosthern and District Ambulance	261	211
Hansen's Ambulance Services	231	179
Shamrock Ambulance Care Inc.	212	191
Wynyard and District Health Clinic	200	224
Quill Plains Ambulance Care Ltd.	187	191
Wakaw Ambulance Service	173	154
George Bailey Counselling Centre	172	166
Crocus Cooperative	153	146
Canadian Mental Health Association	138	131
Lanigan and District Ambulance Association	107	90
Saskatoon Society for Autism Inc.	105	100
Senior Sisters of Sion Residence	50	50
	$ 9,394	$ 8,612

11. Comparative information:

Certain 2002-03 balances have been reclassified to conform to the current year's presentation.

12. Pension plans:

Employees of SRHA participate in one of three pension plans. Some employees participate in the Saskatchewan Healthcare Employee's Pension Plan (SHEPP), which is jointly governed by a board of eight trustees. Four of the trustees are appointed by the Saskatchewan Association of Health Organizations (SAHO) (a related party) and four of the trustees are appointed by Saskatchewan's health care unions (CUPE, SUN, SEIU, SGEU, RWDSU, and HSAS). SHEPP is a multi-employer defined benefit plan, which came into effect December 31, 2002. (This plan was formerly the SAHO Retirement Plan and governed by the SAHO Board of Directors). Other employees participate in either the Public Service Superannuation Plan (a related party) which is also a defined benefit plan, or the Public Employee's Pension Plan (a related party) which is a defined contribution plan. Both of these plans are the responsibility of the Province of Saskatchewan. SRHA's financial obligation to the plans is limited to making required payments to match amounts contributed by employees for current services. Pension expense for the year amounted to $14,793,000 (2003 - $11,290,000) (Schedule 1).

Effective December 14, 2003, contribution rates are as follows:

- 6.55% (2003 - 5.04%) of pensionable earnings up to the yearly maximum pensionable earnings (CPP), plus
- 8.23% (2003 - 6.72%) of pensionable earnings above the yearly maximum pensionable earnings (CPP).

13. Budget:

SRHA approved the 2003-2004 budget plan on June 18, 2003.

14. Financial instruments:

a) Significant terms and conditions

There are no significant terms and conditions related to financial instruments classified as current assets or current liabilities that may affect the amount, timing and certainty of future cash flows. Significant terms and conditions for the other financial instruments are disclosed separately in these financial statements.

b) Credit risk

SRHA is exposed to credit risk from the potential non-payment of accounts receivable. The majority of SRHA's receivables are from Saskatchewan Health - General Revenue Fund, Saskatchewan Worker's Compensation Board, health insurance companies or other provinces. Therefore, the credit risk is minimal.

c) Fair value

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

- The carrying amounts of these financial instruments approximate fair value due to their immediate or short-term nature.
    - Cash and short-term investments
    - Accounts receivable
    - Accounts payable
    - Accrued salaries and vacation payable
- For investments, the fair value is disclosed in Schedule 2.
- The fair value of mortgages payable before the repayment required within one year, is $13,443 (2003 - $10,222) and is determined using discounted cash flow analysis based on current incremental borrowing rates for similar borrowing arrangements, net of mortgage subsidies.

d) Operating line of credit

SRHA has a line of credit limit of $4.0 million with an interest charged at prime less 0.5% which is re-negotiated annually. The line of credit is secured by a Borrower's Resolution offering security signed by the Authority. Total interest paid on the line of credit in 2004 was $16 thousand (2003 - $23 thousand). This line of credit was approved by the Minister.

15. Volunteer services:

The operations of the SRHA utilize services of many volunteers. Because of the difficulty in determining the fair market value of these donated services, the value of these donated services is not recognized in the financial statements.

16. Community trust funds:

During the year, community trust funds generated investment income of $10 thousand, received donations of $nil, and purchased equipment of $6 thousand.
